

Launching the Fellowship

01

Participate in an Introductory Meeting

Email info@educhange.com with your preferred date & time for a 30-minute virtual meeting. Ask questions about the Integrated Science Program and learn about 2021-22 implementation possibilities.

02

Interested? Proceed with Materials Review

If you're ready to learn more & review curriculum materials with a larger team, let us know and we will arrange that for you. EduChange provides a digital shared folder and a virtual orientation session.

03

Receive Free Training on Inclusive Tech!

Alongside the review, science teachers who may potentially implement Integrated Science in 2021-22 get a free, live student training session on tech tools that support inclusion. [Welcome to the Fellowship!](#)

04

Continue the Fellowship, Move to a Decision

EduChange continues to provide practical PD that teachers need *right now,* as the school moves to a decision about implementation by Winter 2021! [Download the brochure for the timeline.](#)

Frequently Asked Questions

What science teachers can participate?

Teachers of 7th, 8th, 9th or 10th grade in 2020-21 are eligible for the Fellowship. Schools may choose a student cohort-focused Fellowship, with an eye toward launching Integrated Science in 2021-22 with a given student cohort. Both the current & next year's science teachers may participate in the Fellowship. Or, schools consider a teacher-focused Fellowship, in which the teacher who wants to launch Integrated Science in 2021-22 can benefit from the Fellowship PD this year in preparation.

How are teachers accepted into the Fellowship?

All teachers interested in this leadership-building opportunity must participate in an initial 30-minute meeting with EduChange staff. Scroll up on this page and click the button to start the scheduling process. Administrators and other teachers are welcome to join the meeting as desired. If your school has the possibility of launching Integrated Science in 2021-22 with a cohort of students, you let us know and we launch the Fellowship! The benefits begin immediately.

Is there a deadline?

Fellows will be accepted on a rolling basis through December 18, 2020.

Is there a cost for the Fellowship?

We are thrilled to provide teachers with all benefits of the Fellowship for free! When the school confirms participation in Integrated Science for the 2021-22 school year, teachers receive additional support in preparation for the launch.

Is there a cost for Integrated Science?

Schools pay for the Integrated Science Program according to the implementation model you select & the size of your implementation. We discuss costs with you once you have a better sense of what is possible in your context.

Can non-science teachers participate?

The Fellowship must include a science teacher, but we welcome Special Educators, ELL specialists, Instructional Coaches, and members of a grade-level team to join the PD! Many schools use Integrated Science as a launchpad for broader academic change in grades 8-up.
